Bergs Hatchery

bergshatchery2562

To our fellow poultry farmers large and small,

We want to start off by thanking you for your continued support of Berg's Hatchery. Berg's Hatchery is under new ownership as of the fall of 2023. We also want to thank Kevin and Connie Berg for sharing their vast knowledge with us and making this a smooth transition. Connie continues to work for Berg's Hatchery and her experience is a huge benefit to us.

We look forward to 2024 and continuing to provide top quality Canadian chicks to our customers. Berg's Hatchery has always been proud to ensure that their customers have the highest quality chicks available to them and we are keeping that tradition going by ensuring we have a local supply of breeders. We have the broiler breeder farm in Didsbury Alberta that we have exclusive access to. We also have an exclusive contract with another farm family for our heritage and dual purpose breeds. This local supply, along with meeting the top standards in animal welfare and biosecurity, guarantees our quality and quantity to hatch a top Canadian chick. We encourage you to place your orders early in order to secure the hatch dates you want.

We hope you enjoy looking through the catalogue and seeing the 12 heritage breeds offered. From the popular Bantams to the Lavender Orpington there is something for everyone. We also have the meat birds, dual purpose, 4 breeds of turkeys and pheasants available. We are also excited to announce that Berg's Hatchery now has an extensive line of poultry equipment to meet all your poultry supply needs. These can be easily shipped to your location. Please reach out to us if you have any questions or have a breed you would like to see in the future. We are always looking to expand our selection while maintaining our proudly Canadian roots.

We wish all our customers a safe, healthy and productive year! We look forward to connecting with past customers and meeting new customers to the poultry industry.

Jeff and Grejanka Kamlah

This year we have unfortunately parted ways with Peavey Mart. We are committed to providing top-quality Canadian chicks and are partnering with businesses who share the same goals. When placing an order through one of our agents you can be assured you are supporting Canadian family farms to produce top-quality Canadian chicks. If you have any questions please contact our office.

Care of Berg's Chicks

TRANSPORTATION

One of the most common mistakes customers make when taking chicks home is having the heat on HIGH in the vehicle. A safe temperature is 70°F (21°C), roughly room temperature. The best place for a box of chicks is in the back seat of the car, van or truck, not in the trunk or box of truck. Good air circulation around boxes is important and there should be no direct heat or air conditioning blowing on the boxes. If you're transporting chicks on a hot day and you need to make a stop make sure there is sufficient air and proper temps around the chick boxes, but it is best to go directly home with your birds. The floor temps in charts on the next page DO NOT apply to transporting birds in a vehicle.

BEDDING

Use fresh litter placed on floor of a well disinfected brooder house. The litter material most commonly used for brooding is a good quality wheat straw. Soft wood shavings can be used, but must have virtually no sawdust in it. Three or four inches of litter should be used, spread evenly over the floor. DO NOT USE PUPPY PADS

DO NOT USE THE FOLLOWING FOR BEDDING:

PUPPY PADS- DO NOT KEEP THEM WARM

HORTICULTURAL PEAT MOSS – it may cause respiratory problems

NEWSPAPER OR CARDBOARD – they do not hold heat and they also have a slippery surface causing damage to the bird's legs

TYPE OF BIRD	STARTING FEED	NUMBER OF WEEKS ON STARTER	WATER ADDITIVE (1 LEVEL TSP/GAL OF WATER)	STARTING BROODER TEMPERATURE
LAYERS DUAL PURPOSE HERITAGE BIRDS GRAZER	20% CHICK STARTER	8 WEEKS	VITAMIN COMPLEX FOR 5 - 7 DAYS & 2 CONSECUTIVE DAYS PER WEEK FOR SEVERAL WEEKS FOLLOWING	85°F - 90°F 30°C - 32°C
BROILERS CORNISH ROCK GIANTS	20% CHICK STARTER	3 WEEKS	SAME AS ABOVE	90°F 32°C
TURKEYS BANTAMS PHEASANTS	25% - 28% TURKEY STARTER	8 WEEKS	SAME AS ABOVE	95°F - 100°F 35°C - 38°C

TEMPERATURE

Temperature is a key element for proper bird development. Newly hatched chicks, especially CORNISH CROSS GIANTS, cannot regulate their body temperature until day 14. Meaning they can't distinguish between hot and cold, so you must do that for them. A chicks' body temp is 104.3 °F(40°C) so recommended ideal floor temp the first 3 days is 90°F(33°C). When searching the internet, you may find lesser temps which may have to do with relative humidity and sometimes is not applicable to our climate. These recommendations are for Western Canada (Prairie Provinces).

The brooding area should be able to maintain a temperature of 95°F (35°C) to 90°F (32°C) at coldest spot chicks have access to. When setting up your brooding area one of the most common mistakes people make is trying to heat much too large of an area with a red heat bulb or other source of heat. You can have as large of brooding area as you want but the coldest temperature the birds should have access to for at least 3-7 days is 90°F(32°C). Have a thermometer on the floor at the coldest edge of the brooding area and that should read 90°F (32°C) if it does not, it's too cold. If it is too cold make your brooder smaller, then increase pen size as the birds grow. A laser heat gun is also a good tool to take temps. A thermometer on the wall is good for knowing room temperature, but is completely useless for brooder area temperature.

Temperatures should be taken at the coldest part of day, which is usually 6 to 7AM. If you do find you cannot achieve proper temperatures make your brooder smaller, but not too small because the birds do need to get to cooler temperatures which is the 90°F (32°C). In general, the temperature under heat lamps is usually warm enough and probably too warm but the main goal is the overall brooding space temperature. The temperature at edge should be dropped 5°F using day 7,14,21,28 as anniversary dates. This is recommended to make temperature readings easier. DAY 1 TO DAY 14 is especially crucial. Week 4 floor temperature is 70°F or 21°C.

Watching the birds in brooding area is a tool that has been recommended for years and it does apply somewhat, but knowing the exact temperature is best. By the time you notice your birds are huddling under the heat lamps they may already be damaged as body temp is significantly too low. Therefore, a thermometer is used as it eliminates the guess work. Any guess work you can eliminate is a bonus and will ultimately help with your success. Dual purpose and layer lines will probably recover if heat is increased but Cornish Giants and turkeys probably will become sick and possibly have mortality. If you are comparing a farmyard breed or layer line to a Cornish Cross or a turkey poult when it comes to brooding, please don't as they have significantly different temperature tolerances. All temperatures stated work for all breeds. Turkeys do better a few degrees warmer.

ARE YOU READY FOR YOUR CHICKS TO ARRIVE

- A) Make a corrugated cardboard ring approximately 6 - 8 feet in diameter.
- B) Pack at least 4" of dry bedding in and around the circle.
- C) Add heat lamp just off center, 2 feeders and 2 waterers for 50-100 chicks
- D) Place thermometer furthest from heater that chicks can reach at chick height. Temperature should be 90° - 95°F/32° - 35°C. Allow 0.5 square foot per chick.

Remember:

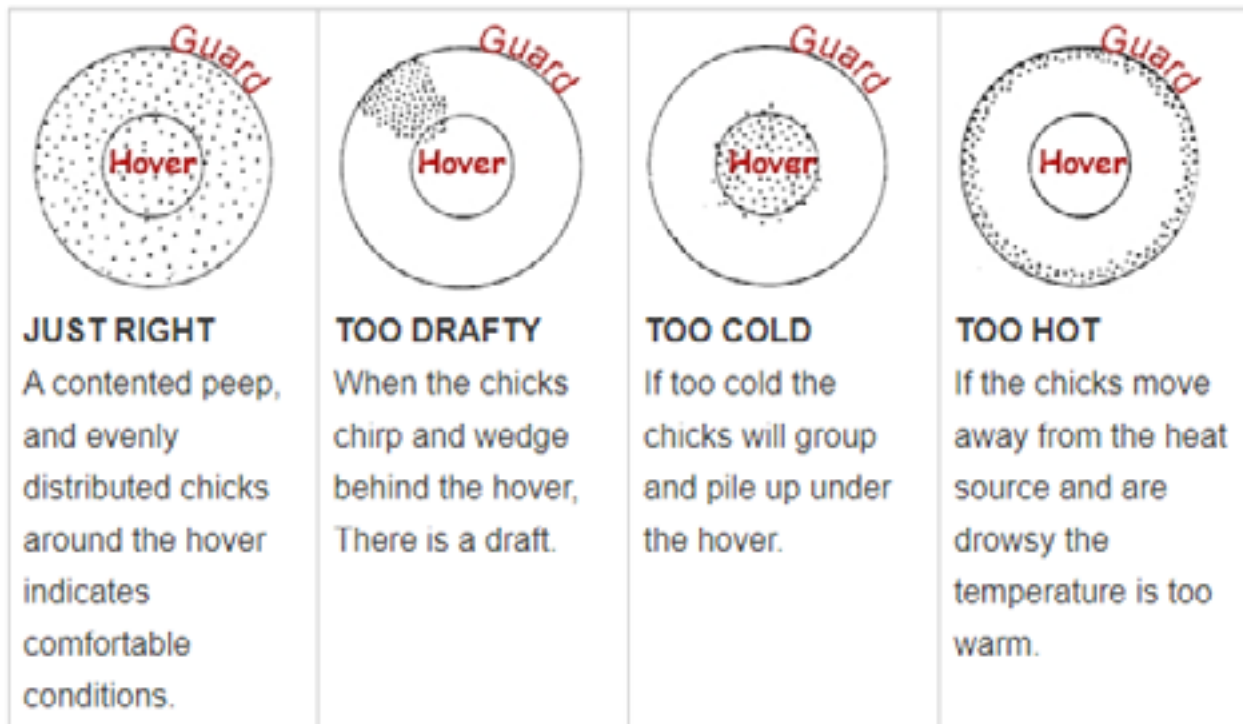

- thermometers replace guessing what is warm enough
- use size of brooding area to help control heat
- only use RED heat bulbs, not white heat bulbs

The diagrams below are good management tools, but KNOWING your floor temperature is the best brooding management there is.

Cooler temp birds should have access to (Away from Heat Source)

Age of Chicks (Weeks)	Temperature
1	90°F (32°C)
2	85°F (29.5°C)
3	80°F (27°C)
4	70°F (21°C)

The above table should be used as a guide only. The best thermometer to use in determining proper brooder temperature is an actual thermometer. The chick or poult itself may give you some indication of how they are coping. If the birds huddle too close to the brooder, the temperature is too low. If the chicks tend to congregate some distance away from the heat source the temperature is too high. If the proper brooding temperature is used, the chicks should be evenly distributed over the entire brooding area. The diagrams below show how to use chicks as a guide for the correct brooding temperature.

As the birds grow older, lower the temperature about 5°F per week until 65°F is reached. A temporary increase in brooding temperatures of about 5°F may be of value for reducing side effects of stress resulting from handling and moving.

KEYS TO BIOSECURITY ON YOUR FARM

1. Purchase your chicks from federally registered hatcheries.
2. Have a clean and disinfected facility.
3. Be clean and showered with clean clothes, especially if you have been off your premises.
4. Do not house baby chicks in the same building as adult birds. Always attend to the youngest birds moving up to the oldest, changing coveralls and cleaning & disinfecting footwear between. Keep a pair of boots for poultry barn use only.
5. Know who your visitors are and where they come from. If they have birds of their own, they should not enter your premises without having showered and changed.
6. Offer your visitors some clean coveralls and boots if they must enter your bird area.
7. If you have a bird that appears sick or dies under unknown circumstances, submit it to your veterinarian for examination or referral to the provincial government laboratory for testing.
8. Keep your facility clean and utilize one or more methods of rodent control.
9. Be sure that all equipment, whether new or used, is cleaned and disinfected prior to use.
10. It is best to only bring day-old chicks or hatching eggs onto your premises. Older birds are more likely to carry disease, even if they appear healthy. Responsible growers will practice good biosecurity themselves and will operate a "closed flock," meaning they do not introduce older birds to the flock.

Enjoy your birds!

IMPORTANT

1. 100% live arrival is guaranteed provided shipment is checked when received and any loss is noted in a report signed by the transporter or his agent (do not include extras). Notification to be given within 24 hours.
2. We will credit any *loss occurring within 2 weeks of shipment of day old chicks without question, **providing** the loss (livability) report is returned to us within 3 weeks of shipment. *Loss over 10% of any one breed must be accompanied by a veterinary report indicating that the loss was a result of poor quality of chicks provided. Do not include extras. Dual purpose and heritage 'Packages' are considered one breed when calculating the 10%. Please contact the hatchery for this report.
3. We guarantee 85% accuracy of sexed orders. Unsexed orders are shipped as they come from the incubator. This generally works out to 50% of each sex; however, the ratio in smaller orders of chicks often tends to be uneven.
4. We cannot guarantee that all the Heritage Breeds conform to their breed standards. Nor can we guarantee the ratio of males to females. Heritage breeds are sold straight run only!
5. In all cases we will only be responsible to the extent of the invoiced price of the chicks or poults to the original purchaser only. **Split orders between customers do not qualify for our guarantee.** We will not be liable for any consequential or incidental damages.
6. We warrant that the poultry described in the order will be in good condition, so far as can reasonably be determined, at the time of delivery by us. Established flock control, egg selection, production, and handling methods (including established sanitary and disease control standards) generally accepted in the industry, are in place. It is understood, agreed and considered reasonable that THERE ARE NO WARRANTIES, EXPRESSED OR IMPLIED, WITH RESPECT TO THE POULTRY OTHER THAN THOSE SPECIFICALLY STATED IN THIS AGREEMENT, AND SELLER SPECIFICALLY DISCLAIMS ANY WARRANT OF MERCHANTABILITY OR FITNESS OF THE POULTRY.
7. By acceptance of the poultry, the buyer acknowledges that the limitations and disclaimers herein set forth are conditions of the sale, and constitute the entire agreement between the parties regarding warranty or other liabilities and the remedy therefore.
8. The purchaser or agent is required to examine the birds and must report any mortalities or other problems to the Hatchery prior to leaving the point of pickup.
9. All orders are F.O.B. the hatchery.

CORNISH CROSS GIANTS

These are the fastest growing, most efficient meat birds available. Their large breasts and thighs give them a great finish. This hybrid bird is good to butcher at a range of weights. For best results butcher the hens at 5-6 lbs. live weight (6-8 weeks). The roosters can be grown to 8-10 lbs. live weight in 10-12 weeks. The rooster puts more of his initial growth into his frame so he makes a better roaster. Read the special growing recommendations on page 4 & 5. These birds give excellent results under the right conditions, but are harder to raise than dual-purpose birds or Berg's Grazers.

CORNISH CROSS GIANTS

Unsexed Each:	1-24:\$4.45	25-49:\$3.45	50-99:\$3.30	100+:\$3.20

PROUDLY CANADIAN SOURCED!!

**BERG'S GRAZER
EXCELLENT ALTERNATIVE TO THE COMMERCIAL BROILER!**

A hardy slower growing meat bird. Ideal for the backyard flock. These dynamic birds produce fine quality meat. This is a rustic breed compared to highly selected broilers with yellowish skin and tasty meat. Beautiful reddish brown with black highlights on tail. Excellent strong legs! You are going to be amazed at how hardy and resistant to disease these birds will prove to be! 5.5 lbs. live weight at 9 weeks.

BERG'S GRAZER

--------------	-------------	--------------	--------------	-------------

Additional charges may apply if a confirmed order is changed or cancelled

BERG'S BROWN

These are the hybrid brown egg layers. They are easy to raise and prolific producers of large, richly colored, brown eggs of excellent shell quality. They are quiet and friendly and easily trained to lay in their nests. They tend to settle for an early in the day lay, so 80% of your picking will be done by lunch time! They are also very clean in their nests so nesting material lasts! Good ventilation, dry bedding, good laying ration (18%) and controlled lighting are a MUST for peak performance! These are an excellent layer and a friendly bird.

**BERG'S BROWN**

Price per chick:

Unsexed: Each	25-49:\$3.61	50-99:\$3.46	100+:\$3.36
Pullets: Each	25-49:\$4.78	50-99:\$4.63	100+:\$4.53
Cockerels: Each	25-49:\$2.56	50-99:\$2.41	100+:\$2.31
(add \$1.00 per chick for orders of less than 25 per sex)			

**BERG'S WHITE LEGHORN**

White Leghorns are ideal for the production of large, high quality, white eggs. These pullets are early maturing and are noted for their lack of broodiness. They are also bred for their disease resistance, excellent feed conversion, and are noted for their adaptability to most conditions. We highly recommend our White Leghorns for any size of flock.

BERG'S WHITE LEGHORN

Price per chick:

Unsexed: Each	25-49: \$2.93	50-99:\$2.78	100+:\$2.68
Pullets: Each	25-49: \$4.53	50-99:\$4.38	100+:\$4.28
Cockerels: Each	25-49: \$1.45	50-99:\$1.30	100+:\$1.20
(add \$1.00 per chick for orders of less than 25 of each sex)			

WARNING!

Poor feed quality for hybrids may result in cannibalism & or egg eating. Hybrids require 18% protein

Dual Purpose Brown Egg Layers

BARRED PLYMOUTH ROCK

The Barred Plymouth Rock is one of the oldest pure breeds. These are tasty, fat free birds, expected to produce up to 300 eggs. They are easy to raise and winter hardy. Note: Barred Rocks are the hardest to sex. *Chicks are black with a white spot on the head.*

COLUMBIAN ROCK

These remain the heaviest of our dual purpose birds. They are a good choice for an all around bird with their sweet happy go lucky personality. Very good meat birds, lean, tasty and hardy. Keep a few over the winter for a fresh supply of eggs. *Chicks are yellow.*

RHODE ISLAND RED

The Rhode Island Red bird is an excellent hardy all around bird; producing rich dark brown eggs. Given the name of the state in which it was first bred, these deep coloured birds have progressed from simply a market bird to an important dual purpose bird with good egg production. Chicks are deep orange.

	BARRED ROCK	COLUMBIAN ROCK		RHODE ISLAND RED		
		Price per chick, per sex, per breed:				
Unsexed :	Each	1-24:\$5.67	25-49:\$4.67	50-99:\$4.52	100+:\$4.42	
Pullets :	Each	1-24:\$7.18	25-49:\$6.18	50-99:\$6.03	100+:\$5.93	
Cockerels:	Each	1-24:\$4.27	25-49:\$3.27	50-99:\$3.12	100+:\$3.02	

RED SUSSEX CROSS

This cross produces a predominantly white rooster, which is easier for plucking. As with the Red Rock, there is an excellent balance between good meat, decent eggs and are very easy to handle and raise a flock. *Pullet chicks are red, while the cockerels are yellow.*

BLACK SEX-SAL-LINK (RED ROCK CROSS)

This traditional cross is a fine balance between egg and meat production. Roosters resemble a Barred Rock in size by weighing in at 6.5lbs, while the trim black hen with reddish chest weighs in at 5.5lbs.

Pullet chicks are solid black, while the rooster has a white spot on its head (same appearance as a Barred Rock).

	RED SUSSEX	BLACK SEX-SAL-LINK (RED ROCK CROSS)			
		Price per chick, per sex, per breed:			
Unsexed:	Each	1-24:\$4.91	25-49:\$3.91	50-99:\$3.76	100+:\$3.66

HERITAGE BREEDS - STANDARD

Heritage breeds have been selected for temperament as well as tolerance of the Canadian climate. We will do our best to give you a good selection of breeds in your packages, but we cannot guarantee that you will get all the breeds or guarantee show quality! Minimum orders, for warmth, are 25 Chicks or 30 Pheasants (selected dates).

AMERUCANAS

This American version of the Ameraucana has tail feathers unlike their rump-less ancestors. Not as big as our other breeds, it is a fine layer of quality large blue-green eggs. Their delightful beards & multicolours have kept it our most popular heritage breed for many years.

BIELEFELDER

A relatively newer breed known as a "gentle giant" first appearing in the USA in 2011. This breed has a great cold tolerance. They are friendly, calm chickens and produce large brown eggs.

BLACK AUSTRALORP

The Australian equivalent of the Orpington. These are a docile bird despite the dominant black colour. Appealing round bodies with an upright 5 point comb. Excellent dual purpose bird.

BLUE ANDALUSIANS

Originally from Spain, the Andalusian has been bred in the United States and Great Britain. They are smallish, active, closely feathered birds that tend to be noisy and rarely go broody. Ideally the plumage should be slate blue with delicate black lacing, but in lots of birds the blue can be various hues and the lacing can be lost. They tolerate heat better than the cold, but need shade to retreat to when it becomes too hot or humid.

BUFF ORPINGTON

Brought to North America in the late 1800's. They have broad, smooth fitting feathers on their massive bodies. Excellent temperament, hardy winter birds, good layers with beautiful pale meat, makes this a top class dual purpose bird.

COPPER MARANS

One of the six recognized Maran breeds in 1932. In post-war France the breed was nearly non-existent. They are fantastic egg layers with the darkest color egg. These birds are non-aggressive that are great at foraging.

CUCKOO MARANS

Marans were developed in France in the town of Marans during the mid 1800's. It is a dual purpose bird and is known for its deep chocolate brown eggs. The Cuckoo Marans have a black and white feather colour pattern similar to the Barred Plymouth Rock. Marans are typically calm and can be easy to train.

GOLDEN LACED WYANDOTTE

Created in Wisconsin in the 1880's for people wanting a great utility bird. These are also great layers of medium-size, light brown eggs. They have a tendency to be broody with strong personalities but docile with their keeper. Very cold hardy with dense feathering and stunning plumage.

LAVENDER ORPINGTON

Orpingtons were originally developed in England in the 1880's; however, the lavender version was bred in 1990's. Known to be curious, docile, and intelligent. They are large yet compact. A good egg layer, can be broody and will sit on any egg!

SPECKLED SUSSEX

Is a lively yet docile breed that can adapt to any surroundings. They enjoy the presence of humans and make delightful pets. The breed frequently goes broody in the warmer months. They are good foragers and are generally a hardy variety for our cold climate.

**Did you know that a rooster will breed up to 40 times daily?
For happy hens keep your roosters to a ratio of 1:8-10 hens.**

Heritage Breeds

Price per breed

1-5: \$16.80 each 6-14: \$11.15 each 15-24: \$9.65 each 25+: \$8.65 each

Additional charges may apply if a confirmed order is changed or cancelled

HERITAGE BREEDS - BANTAM

12

All bantams are very sensitive to temperature -especially for the first 2 weeks. Their tiny bodies cannot hold the body heat like a Broiler. TLC must be provided and constant monitoring for the first 48 hours. We recommend **Turkey starter** for the first 8 weeks.

WHITE SILKIES

These unusual birds are known for their black skin and hair-like plumage. Having a fifth toe is also an unusual trait. These birds date back to the days of Marco Polo and have remained popular as an excellent setter and for their friendly nature. The Whites are the quietest of the silkies.

GOLDEN LACED COCHIN

Originally known as "Pekin" bantams these delightful birds arrived from China with returning soldiers around 1860. Cochins are heavily feathered down the shanks and toes and appear to be much larger than they actually are. They are very gentle, excellent setters, require little space and are absolutely beautiful to look at. Each feather is rich, golden-bay laced with lustrous greenish-black creating a broad oval with a golden bay center.

Price per breed

1-5: \$16.80 each 6-14: \$11.15 each 15-24: \$9.65 each 25+: \$8.65 each

Pheasants

CHINESE RINGNECK PHEASANTS

The most loved of the meat pheasants in this part of the world. These Chinese descendants continue their popularity due to their good taste and fine looks. Pheasants should be butchered at 22 weeks & will weigh 1.5-2.5lbs. live. They are sold unsexed only and shipped on select hatch days at a minimum of 30 pheasant chicks.

Price per chick:

30-59: \$6.50 60-89: \$6.30 90 or more: \$6.10

30 pheasants: \$195.00 plus shipping

Call for 2024 hatch dates

HERITAGE BREEDS

These breeds have been selected for their uniformity, rate of lay, docile temperament and utilization as a good lean meat alternative! They are highly desirable for their longevity and hardiness despite our harsh weather extremes. Given the chance, they will not only all set, but will be with you for many years. We are unfortunately **unable to sex** these birds so we cannot be responsible for the rooster to hen ratio. The more you order of a breed the better the chance of balanced numbers-Most breeds hatch at 48% pullets.

Our vaccinated purebred parent stock produces excellent quality, lively chicks. All Heritage birds and Pheasants are **SOLD UNSEXED ONLY**. You can be sure that your chicks are strong and healthy - Our reputation depends on it. This stock has variable breed uniformity, therefore not considered show quality!

HOW TO ORDER

YOUR CHOICE: * Price per chick per breed. You may order: Ameraucanas; Bielefelder; Black Australorp; Blue Andalusians; Buff Orpington; Copper Marans; Cuckoo Maran; Golden Laced Cochin Bantam; Golden Laced Wyandotte; Lavender Orpington; Speckled Sussex; White Silkies Bantam

1-5:\$16.80 each **6-14:\$11.15** each **15-24:\$9.65** each **25+:\$8.65** each

PACKAGES: Hatchery selection of one or more breeds of birds **not** booked for specific breed orders.

We make every effort to provide you with a mix of breeds available on your shipment date.

You may **not** choose the breeds with this package option. Minimum 10 for a package. Total order must equal 25.

There are **2 different packages; STANDARD** (Standard) or **ALL BREED** (Standard + Bantam)

10-24:\$8.65 each **25+:\$7.90** each (no guarantee of no. of breeds/varieties)

EGGS

HATCHING EGGS: SHIPPED WITH CHICKS ONLY

For those of you that would like the joy of seeing new life as it emerges, we can supply a few types of hatching eggs. We can ship fresh eggs to you **by mail**, but they **must be with an order of chicks**. While we will ensure that we ship eggs with high fertility, due to the nature of hatching eggs, **we cannot be responsible for how they hatch. Additional freight charges of \$10.00/dozen apply.**

CHICKEN EGGS: Cornish Cross, Berg's White Leghorn, Berg's Brown, Rhode Island Red
Black Sex-Sal-Link(Red Rock Cross) or Red Sussex Cross. **\$31.00/dozen**

TURKEY EGGS: White Turkey **\$58.00/dozen** Bronze Turkey **\$81.00/dozen**

Sorry! Heritage Breed Hatching Eggs are NOT available for purchase.

READY TO LAY PULLETS

Berg's White Leghorns & Berg's Brown Layers

Available at the age of 19 weeks. Our Ready-to-Lays are grown from day old chicks in controlled, sanitary conditions with a complete vaccination program and beaks treated. Most of the pullets are floor raised for easy adaptation to the small flock setting; i.e.,-resistance to Coccidiosis and pile ups (some pullets may be cage-raised). Birds must be picked up as we are not able to ship grown birds. Our RTL's are grown in batches. We confirm bookings approx. one month prior to pick-up from a first come first serve waiting list. Please contact us to be put on the no obligation waiting list. There is a non refundable deposit of \$3.00 per bird at time of booking. Full balance is due 3 weeks prior to pickup. Pickup location to be determined. Not available through any agents.

TURKEYS

WHITE TURKEY

The White Turkey is the top grower in big hearty birds. Selective breeding has allowed for an enhanced focus on breast meat yield. A tom at 20 weeks should weigh over 40lbs., while the hen will weigh 18lbs. in 16 weeks. Their white feathers make them very easy to clean.

ORLOPP BRONZE TURKEY

You are going to be impressed with the growth rate! The Orlopp Bronze is a broad-breasted turkey, with excellent conformation and high meat quality due to its natural fat layering. Underneath its beautiful bronze feathers is an efficient, robust turkey. Growing faster and bigger than the Bronze of the past. Hens may grow up to 23lbs. in 20 weeks. Toms will grow up to 40lbs. in 20 weeks.

ARTISAN GOLD

The Artisan Gold is a rare breed that is small in size and slow growing. It has black feathers, unique coloring in the face and feet, long black legs, and a pronounced beak. The Artisan Gold thrives in a free-range or custom environment where it can express natural tendencies such as roaming and roosting. The Artisan Gold offers a robust, gamey taste that is exotically different from traditional turkeys currently in the market. With its unique and uncommon characteristics, the Artisan Gold is a standout on any farm or dinner table. Call for 2024 hatch dates.

MINI CLASSIC

The MiniCLASSIC is a small sized turkey that offers big advantages. Small, stocky, and robust, the MiniCLASSIC has been carefully bred to deliver all of the desirable characteristics that turkeys have historically been appreciated for. The MiniCLASSIC thrives in specialized or free-range operations, and is the perfect complement to any farm. As a smaller choice, consumers will embrace the MiniCLASSIC for its convenient-to-cook size that delivers a high quality, succulent taste with appealing table presentation that is perfect for the most prestigious family celebrations. Call for 2024 hatch dates.

TURKEYS SOLD AS MIXED SEX ONLY

NOTE: We cannot guarantee orders of less than 10 turkeys. 10 turkeys can be shipped with chicks to make a minimum of 25 total in the same box or 20 turkeys shipped on their own.

WE CANNOT SHIP STARTED BIRDS.

HOVABATOR INCUBATORS - All of the Hovabator Incubators have Styrofoam construction, an easy to maintain plastic liner with water channels for humidifying, and a turbofan that circulates air and eliminates any hot and cold spots. Without a turner each model holds up to 50 duck/chicken eggs, 40 turkey, 90 pheasant or 130 quail eggs. Includes a thermometer for temperature monitoring. Highly reliable for an economical incubator, with a proven track record. Losing one set of eggs would more than offset the cost of buying cheaper similar incubators.

CIRCULATED AIR

12v DC power supply operates on 100-240AC. This model has two small windows and a wafer thermostat. (2365) **\$166.90**

PICTURE WINDOW

Large triple plated plastic full window for easy classroom viewing.(110V) Controlled with a wafer thermostat. (1583) **\$180.70**

ELECTRONIC THERMOSTAT LCD DISPLAY

Simply plug it in, add water and eggs! It is pre-set for bird eggs, so there is no adjustment to make, & you enjoy consistently great hatches. The LCD will display set temperature, actual temperature and humidity % in both Fahrenheit and Celsius. Includes picture window and 12V DC power supply that operates on 100-240AC. (1588) **\$263.00**

AUTOMATIC EGG TURNERS FOR HOVABATOR INCUBATOR

For best results, eggs need to be turned at least 3-4 times/day. The addition of an automatic turner makes this task less demanding. The turner holds up to 6 interchangeable racks. The universal racks will hold 41 eggs ranging in size from partridge to duck. Quail racks hold 120 eggs. All turners fit in all Hovabator models.

- Turner with Universal & Quail racks** (1610) **\$85.30**
- Turner with Universal racks** (1611) **\$69.00**
- Turner with 3 Large Egg racks (12 eggs)** (1614) **\$69.00**
- Universal racks only** (1696) **\$23.70**
- Quail racks only** (1686) **\$23.70**

REPLACEMENT PARTS:

Bottom with Liner (1766) **\$36.70**
Plastic Liner Only (1765) **\$14.70**

12 volt adaptor for electronic hovabator (1735) **\$49.50**

For the serious enthusiast the **Sportsman Incubators** are the economical answer. These large capacity incubators provide forced air circulation, dual thermostats for backup, automatic turning every 2 hours, and an easy to read dial thermometer/hygrometer.

THE SPORTSMAN INCUBATOR: This incubator has 3 egg "setting" trays that turn and one "hatching" tray that does not. This permits a rotational setting of 1 tray of chicken eggs per week while hatching one tray per week. Each tray holds 400 quail, 135 chukar or pheasant, 70 large chicken or 47 goose eggs. With electronic control (1502E) **\$1,503.00**

THE SPORTSMAN HATCHER: For improved results and better sanitation, hatcheries use a separate "setting" and "hatching" system. The eggs are incubated for 18 days in an incubator with turning trays, and then moved to a separate hatching unit, where the trays do not turn, to complete the hatching process. This allows the setters to be kept relatively clean, while the hatchers can be cleaned after each hatch. An added advantage is that if you are incubating different species together, the higher humidity required for hatching is easier to manage without affecting other incubated eggs. You may also hatch more eggs at one time. With electronic control. (1550E) **\$1,409.80**

REPLACEMENT PARTS FOR THE SPORTSMAN

Turner Motor	(3022S)	\$117.40
Electronic Thermostat	(SPA3)	\$156.40
Dial Thermometer/Hygrometer	(SPA4)	\$45.50
Heating Element (complete)	(SPA5)	\$35.90
Turner Timer & Switch	(SPA6)	\$56.10
Pilot Light	(SPA7)	\$9.80
Fan Motor	(SPA8)	\$132.60
Wicks (set of 2 for dial hygrometer)	(SPA9)	\$4.40
Toggle Switch	(SP10)	\$17.30
Fan Blade only (prior 2007)	(SP11)	\$17.95
Auto Turner Complete	(SP12)	\$282.40
Power Failure Alarm	(SP14)	\$36.60
Thermostat micro switch	(3006)	\$16.70
Heating element alone	(SP15)	\$13.60
Digital Hygrometer/thermometer	(3520)	\$39.60

*Spare parts Kit: Includes Thermostat switch (complete) and Turner Timer & Switch Mechanism. (SP13) **\$96.80**

This allows the setters to be kept relatively clean, while the hatchers can be cleaned after each hatch. An added advantage is that if you are incubating different species together, the higher humidity required for hatching is easier to manage without affecting other incubated eggs. You may also hatch more eggs at one time. With electronic control. (1550E) **\$1,409.80**

SPORTSMAN PLASTIC EGG RACKS
SOLD AS A FULL SET

Extra large chicken	(SAC3)	\$96.60
162 egg capacity	(SAC4)	\$113.20
Universal 270 egg capacity	(SAC5)	\$93.30
Quail 540 egg capacity	(SAC6)	\$91.10
Pheasant 354 egg capacity		

Automatic Humidity For Sportsman: Consists of 5 Gal. Reserve tank, connecting hose, with quick disconnect coupling and constant level humidity pan with 2 humidity pads, for increased humidity at time of hatch. For all GQF Cabinet Incubators. (SAC2) **\$87.60**

MINI DOME INCUBATOR: A handy little incubator for a thrilling experience for kids. No thermostat control. Must be kept in a warm room with no drafts. Capacity 2-4 eggs. **Special \$21** (MI01) ~~\$41.40~~

It is important to know what year your sportsman was built before ordering parts. Some parts were changed in 2008 & 2013
Parts are available for all ages of models

BROODER SUPPLIES

BROODER THERMOMETER: (Hanging) is an essential part of your temperature control. Wide red indicator with suggested temperature markings by week. (BR01) **\$12.00**

Never guess the temperature. A thermometer is essential.

BROODER GUARD 35' x 18" Keeping young chicks from straying far from the brooder for 7-10 days is important. Brooder guard keeps them safe, reduces drafts and pileups in the corners. (BR03) **\$19.30**

INFRA RED HEAT BULB
2 per pack, 250 watt-110 volt Multi purpose heat bulb. (BR08) **\$27.50**

PRICES SUBJECT TO CHANGE WITHOUT NOTICE, PRICES DO NOT INCLUDE TAXES AND SHIPPING. ALL EQUIPMENT ORDERS ARE SHIPPED FROM SEVEN OAKS MANUFACTURING, RESTOCKING FEE 25%. COPYRIGHT 2024

CALL TOLL FREE 1-800-661-6991 OR FAX 780-349-6691

4 LAMP BROODERS:
Supplies enough heat for 325 chicks or 250 poults. Two stage thermostatic control turns heat bulbs on/off in stages to give even heat at chick level. Has porcelain socket, cord plug and reflector guard. Bulbs sold separately.

Brower (BR07) \$251.50
Kuhl (BR13) \$149.60

SINGLE LAMP BROODER:
This infrared electric brooder will supply enough heat for 80 chicks or 50 poults. Has porcelain socket, safety cord, and baked enamel reflector guard. Bulb not included. (BR05) **\$42.10**

SINGLE LAMP BROODER WITH HIGH/LOW/OFF SWITCH:
Bulb not included. (BR06) **\$54.90**

Products may not look exactly as shown

GAS BROODER:
(Natural Gas or Propane) Thermostatically controlled fuel efficient gas brooder heats up to 1000 chicks. The pilot is draft resistant and the gas valve has an automatic safety shut-off. (BR04) **\$563.80**

CHICK AND QUAIL BROODER: An electric brooder for baby poultry or quail. Capacity 125 day-old chicks and up to 50 four-week olds. Quail capacity-100 to fourth week. Use in any building where temperature does not fall below 60°F. Sliding poly mesh door panels on front and one side. Includes 3 liter poly bottle drinker and 580 cubic inch capacity feeder. Both feeder and drinker fill from outside. Drinker trough is self-cleaning. 1/2" PVC coated wire floor. Dropping pan easily removed for cleaning. Thermostatic control, 500 watts. Overall size-32"W x 38"L x 12"H. 110V ac only.
QGF Brooder (BR18) \$465.30

WATERERS

PLASTIC CHICK WATERERS: These easy to clean, durable waterers are perfect for starting chicks.

4L / 1 GAL FOUNT
Wide Base - up to 60 chicks,
Easy nesting storage

JAR (WS10) \$4.60
WIDE BASE (WS11) \$5.40

4L / 1 GAL FOUNT
Screw on - up to 50 chicks

JAR (WS06) \$5.10
BASE (WS07) \$5.10
QUAIL BASE (WS08) \$6.80

1L FOUNT
Up to 15 chicks

JAR (WS02) \$2.90
WIDE BASE (WS03) \$2.80
QUAIL BASE (WS04) \$2.80

POP BOTTLE WATERER
"Through the cage" watering uses a pop bottle. Includes spring to hold the bottle to the cage

POP BOTTLE (WS12) \$3.30

POULTRY NIPPLES
(4/pack) simply screw these into the base of a bucket and you have an easy to use inexpensive hanging waterer.
(PPWN-4) \$11.30

AUTOMATIC WATERING BOWLS: Work with high pressure or gravity system. The bowl is durable hard plastic. The standard brass valve makes the bowls interchangeable. Attach to a standard 1/2" pipe. Parts are also available. Choose from these 3 bowl sizes:
A. King Size Fount (1.5 Quart Bowl) (WA01) **\$65.80**
B. Poultry Fount (WA02) **\$54.10**
C. Baby Chick Fount (Shallow Bowl) (WA03) **\$54.50**

POULTRY DRINKING CUPS USED (4085)
\$4.00 each
Different styles.

FLOATING DE-ICER: Keeps waterers ice free even in extreme cold. Thermostatically controlled to cut out at 15°F. 1500 W (WP03) ~~\$20.00~~
Special Offer **\$50.55** while supplies last.

PRESSURE REDUCER: 0-10 lbs. (WP01)...**\$98.70**

SUBMERSIBLE DE-ICER: Safe in plastic, good for pails and founts. Thermostatically controlled
250W (WP04) \$107.00
500W (WP05) \$114.70

ELECTRIC FOUNT BASE HEATER: Set your waterer on this base to eliminate frozen water problems. Thermostatically controlled to keep your water at 50°F. This low power heater is not recommended for outside use in extreme cold, or use with plastic. (WP02) **\$117.00**

Bracket Mounts:
Wall Mount (2500-BKT) **\$27.60**
Free Standing (2500-stand) **\$36.80**

EGG WASH DETERGENT - Non-Foaming

Specially formulated to clean and sanitize with fast drying action in the turbo egg washer. A heaping tablespoon will clean up to 3 full baskets.

- 500g (EG01) \$9.90**
- 5kg (EG02) \$46.90**
- 10kg (EG03) \$82.60**
- 20kg bag (EG11) \$115.20**

EGG SCALE: This easy to use scale lets you grade eggs by weight. Adjustable screw stop allows grading out one size at a time. (CES) **\$61.40**

EGG CARTONS: One dozen pulp, 250 per bundle. (ECP-12A) **\$114.30**

KLEEN EGG TURBO AIR-WASH: The solution to cleaning large quantities of eggs. Plug in, add egg detergent to the water and attach to your air compressor. The heating element heats the water. Gather the eggs into the basket and place it directly into the washer. The air keeps the water in motion and leaves you with clean eggs in 3-5 minutes. Complete with one egg basket. (EG07) **\$515.00**
Additional basket (EG08) \$34.50

FIBER EGG FLATS: 30 eggs per flat, 140 per bundle. (EG13) **\$42.20**

15 DOZEN EGG BOXES: Plain, no print. (EG14) **\$2.50** Each

EGG CANDLERS: An egg candler is indispensable for detecting blood spots, freshness (by the size of the air cell), and the presence of an embryo in hatching eggs during incubation. Brown eggs do not candle well.

COOL LIGHT EGG CANDLER: Small and light weight with a 5 foot cord allowing you to candle incubating eggs with out risking breakage. (9046) **\$25.50**

EGG SANDER: Padded holder is gentle on eggs. (EG09) **\$8.10**

EGG BRUSH REFILLS: (EG10) **\$4.40**

6 HOLE PLASTIC NEST: The lids, front and back partitions and perches are plastic and therefore greatly reduce the risk of bugs and make the entire nest very easy to keep clean. Highly durable and well ventilated. It is 36" wide and has galvanized sides & brackets. (P-6HN) **\$358.10**

ROLL-A-WAY NEST: The eggs just roll beneath a covered part of the sturdy wire baskets keeping your eggs clean and safe! No straw or shavings required after training period! The roost bar can be raised at night to close the nest to keep it clean. The nest holes are designed for leghorns as well as larger breeds. **Allow one nest hole for every 5 hens.** We do not recommend roll-a-way nests to be used in combination with conventional nest boxes in one coop. Some assembly is required. Sold unpainted.

- WOOD 10 HOLE ROLL-A-WAY:** Good for up to 50 hens. (EG15) **\$475.80**
- WOOD 4 HOLE ROLL-A-WAY:** For up to 20 hens. (EG16) **\$237.90**
- METAL 10 HOLE ROLL-A-WAY:** Not shown. (MRF-10-RAW) **\$715.10**

PRICES SUBJECT TO CHANGE WITHOUT NOTICE, PRICES DO NOT INCLUDE TAXES AND SHIPPING. ALL EQUIPMENT ORDERS ARE SHIPPED FROM SEVEN OAKS MANUFACTURING, RESTOCKING FEE 25%. COPYRIGHT 2024

POUL-VITE: This is a water soluble vitamin powder containing biotin that will supply a good supplementary source of vitamins. It is indicated for use in poultry to give starting chicks and poults a head start (first 4 days), and to supplement chickens and turkeys in cases of reduced food intake. Mix 1/2 tsp. per gallon water. (PVITE100G) **\$7.00**

DISPOSABLE COVERALLS: It is critical to have good bio-security even with a small flock! Disposable Coveralls (MI18) Disposable Boot Covers pairs (MI43)

STOP-PICK: While this will discourage birds from picking the treated bird, it should not be spread on an open wound since it contains cayenne pepper! 170ML (SP-170) **\$19.40**

NOT recommended for open wounds! Use Vaseline!

ELECTROLYTES

PLUS: A water soluble multi-vitamin and electrolyte mixture for livestock that can help in stimulating appetite during periods of stress conditions. 400g. (ELP-400G) **\$20.90**

Thoroughly disinfect your barn between flocks and allow time to dry.

An ounce of prevention is worth a pound of cure.

FOOT BATH 24"x32" Rubber Finger Mat. Holds approx. 2 litres disinfectant. Easy to clean. (FBS) **\$144.10**

VIRKON: The ultimate antiviral disinfectant. Even used in hospitals. The 50 gram pouches make a 5 litre solution for final disinfection after cleaning; Perfect for small facilities - This non-irritating disinfectant can be used around humans and animals. (MI16) **\$8.30**

VIROCID: Highly concentrated broad spectrum disinfectant. 5 litre (MI45) **\$192.90**

MOUSE/RAT BAIT: The perfect weather proof bait for mice and rats.

KEEP AWAY FROM PETS

Each box makes 8 baits. 454g (MI44) **\$17.90**
Small Packet. 43g Rat/Mouse Pellets (MI41) **\$2.10**

REPEATER MOUSE TRAP: No bait mouse trap is easy to use (MI54) **\$12.40**

Mice are ideal carriers of unwanted diseases from the outside of the barn to the interior!

FLY RELIEF DISPOSABLE BAG:

Attract and kill flies safely. Special attractants work wonders without the use of insecticides making this product an environmentally safe control. This 1 gallon trap comes with a 4oz bottle of attractant. (MI52) **\$16.00**

Doktor Doom Lice Killer

For use in poultry houses to control poultry lice and exposed stages of Darkling Beetles, spray roosts, walls and nests or cages thoroughly. This should be followed by spraying over the birds with a fine mist. 550g **Call for price**

Germe-Zone FOR CUTS, SCRATCHES, ABRASIONS, WOUNDS & BURNS: Germe-Zone is a very effective and beneficial antiseptic application to the skin and semi-exterior mucous membrane for poultry and stock. On cuts and wounds it may be applied full strength and will not injure tissue. An antiseptic wash may be made by diluting one part of Germe-Zone with 25 parts of water. 500ml **\$9.40**

FOGMASTER TRI-JET 120V
FM-620810 **\$643.60**

PHEASANT HOODS WITH PINS: In plastic pouch, 25/pkg. (MI04) **\$12.50**

BEAK GUARDS WITH PINS: In plastic pouch, 25/pkg. (MI02) **\$12.50**

PEEPERS WITH PINS: In plastic pouch, 25/pkg. (MI03) **\$12.50**

REDUCE RISK OF DISEASE TRANSMISSION WITH FLIGHT NETTING!

Keeps unwanted wild birds and predators from contact with your flock. Available in various sizes. Call us for more information.

PLIERS: Standard economy plier for use with C-Clips for connecting netting or Peepers and Hoods. (MI06) **\$38.80**

AquaBeads®

Proprietary Gel Beads for Feed Attractant Top-Dressing and Hydration Supplementation Applications

AquaBeads® are a ready-to-use, 92% moisture gel bead designed for application as a top-dressing to starter feed at the time of placement to accelerate early discovery of feed and water for improved health and growth performance.

Early Discovery of Feed and Water

The sooner hatchlings discover and start consuming feed and water at placement, the quicker their digestive and immune systems will develop and provide a foundation for strong growth.

The key metrics for poultry producers for early performance—7-day mortality, body weight, gut development, disease resistance, overall livability—are positively impacted by proper hydration and nutrition provided by early access to feed and water.

Clearly Better Quality

- **Nutritional Hydration** – Water gel bead enhanced with electrolytes and betaine to provide both hydration and nutrition supplementation.
- **Highly Attractant** – Green color stimulates attraction to hatchlings to accelerate feed discovery.
- **Contaminant Free** – Commercially sterile and independent laboratory tested.
- **Quality Assurance** – Produced in an FDA approved facility with Certificates of Analysis available at www.clearh2o.com.

Clearly Better Convenience

- **Ready-To-Use** – No measuring, mixing, or addition of water needed for easy and clean administration.
- **Packaging** – 34 lb poly bag in a case (63 cases/pallet)
- **Shelf Life** – 12 months at room temperature. No refrigeration required if unopened.

Instructions

- Apply as a feed top-dressing at a rate of 1-2 grams/hatchling/day at the time of placement.
- Applications may range from 1-3 days depending on hatchling and environmental conditions.

Smaller quantities may be available

LOCKING COMBI EXTREME

- Opens and closes using the timer and/or light sensor.
- Configurable fail-safe timer for light sensor – closes door at the set time even if it is still light.
- Easily adjustable light (LUX) sensitivity when using the light sensor.
- Manually open & close with the simple press of the button.
- Fully featured LCD display for ease of use.
- Powered by 4 x AA batteries (included) or electric powered via USB (cables not included).
- Door closed indicator visible up to 100 metres away.
- All in one design, Long Battery life with low battery warning.
- Low maintenance.
- No complicated wiring or cabling.
- No minimum or maximum door heights.
- 4kg/8lb door lifting capability.
- Made in UK.
- You can build your own door assembly or purchase with an aluminum door kit.
